1 can of cream of coconut 15 ozs

1 can of pineapple juice 33 ozs

2 cups of ice

Measuring cup

Teaspoon for stirring

Cream of coconut comes already sweetened. For that reason, there's no need to add sugar. Sometimes the cream is separated from the syrup in the can. It's a good idea to mix it with a teaspoon.

Steps

1. Add 3 cups of pineapple juice to a blender.
2. Open and stir the can of cream of coconut with a teaspoon.
3. Add 1 cup of cream of coconut to the pineapple juice in the blender.
4. Add two cups of ice.
5. Blend on high speed until ice is crushed, ingredients are combined and drink is smooth.
6. It should take less than one minute. Taste. Share. Enjoy.
